

GAUTAM D. GORADIA  
CEO & M.D.

"cctv is not enough.  
we make it work for you.  
- *the com-sur way!*"

today, cctv is 'fit and forget'  
we make it 'work' for you to achieve optimal benefits and better roi  
- *the com-sur way!*

introducing com-sur  
the world's only cctv video footage auditing, smart backup,  
and intelligent reporting software

com-sur is the 'missing' piece, and a complete 'workflow' for  
cctv/video surveillance!

# com-sur helps you achieve valuable outcomes\* from cctv through visual control and continuous improvement

- crime, loss and fraud prevention, faster solving of crime
- risk mitigation, improvement of operational efficiency, processes, and business continuity efforts
- improvement of employee performance, customer satisfaction, and sales
- enhancement of compliance and health and safety issues
- ease of investigation, gaining better situational awareness, and actionable intelligence

# com-sur solves your pain points related to cctv

- it helps you reduce storage, create data redundancy, and search even after years
- it helps you run through far lesser images (thousands instead of millions) making it easy for you to audit hours of video (from multiple cameras) in minutes
- it delivers a 'complete' picture along side with analytics, artificial intelligence and machine learning
- it helps you create standardized reports in powerpoint/word, and delivers b.i. in excel
- it helps you take corrective and preventive action based on historical data

# com-sur makes it frictionless for you

- it works with live and recorded video from any video source; cctv, body worn, drones, uavs, mobiles...
- it works with existing cameras and video management systems

# com-sur brings a new twist to centralized surveillance and remote video auditing

com-sur helps overcome many of the challenges of centralized video surveillance and remote video auditing; including expensive infrastructure, bandwidth requirements, slow response time in reporting to customers and so on...

## what else?

- com-sur makes post incident analysis very efficient and easy
- com-sur helps create a new profession of 'cctv video footage auditors'
- com-sur encourages crowd-sourced surveillance and community policing
- com-sur is available in several versions based on customer needs
- com-sur is available for free to all places of worship world-over as a social responsibility

# how does com-sur work?

- install com-sur on a computer
- get a live video feed from multiple cameras on the computer
- get com-sur to take screenshots at every one second in the background
- get com-sur to save screenshots at your remote locations
- audit hours of screenshots in minutes and take next steps

com-sur integrates effortlessly with these  
superb technologies

Above services are subject to their respective terms. No Com-Sur affiliation. Conditions Apply.

com-sur brings huge benefits to the police,  
law enforcement, and defence forces

# com-sur helps you make better use of cctv in areas beyond crime

- agriculture
- forests
- climate change
- space
- marine life
- etc...

actionable intelligence is needed everywhere

com-sur recommends a standard global signage  
with a single powerful message

“we check cctv everyday”

make this the new global standard message

whatever be your business  
com-sur can help you

a-z

whether you have thousands of cameras at an airport,  
or a few cameras at a zoo, com-sur will help you...  
airports, banks, casinos, defence, educational institutions, factories,  
governments, hotels, hospitals, jewellers, the list is endless...

# executive summary
